FORM 2
MCH BUDGET DETAILS FOR FY 2009

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: GU

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 750,806

A.Preventive and primary care for children:

\$ 225,242 (30 %)

B.Children with special health care needs:

\$ 225,242 (30 %)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 75,080 (10 %)

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 337,283

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 0

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 0

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 0

\$ 337,283

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 1,088,089

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 0

c. CISS: \$ 0

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 0

h. AIDS: \$ 0

i. CDC: \$ 0

j. Education: \$ 0

k. Other: \$ 0

\$ 0

\$ 0

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 0

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 1,088,089

FIELD LEVEL NOTES

1. Section Number: II. Unduplicated Count by Ethnicity

Field Name: InfantsTitleV_NotReported

Row Name: Title V Served

Column Name: Ethnicity Not Reported

Year: 2009

Field Note:

The data for 2006 and 2007 births has not been keyed into the Vital Statistics data files. The 2006 birth year has only had 36% of records keyed, and 2007 has not been started. The primary reason is a continuing lack of staff support for data entry, as well as a continuing lack of staff for the Office of Vital Statistics. In addition to the 40% vacancy rate the Office has had since 1999, they were given additional duties in January 2007 with no provisions made for additional funding or staff. These additional duties (marriage license applications) take up the time that had been used in the past for keying of data. During 2008, for short and sporadic periods, the Office has been able to garner some assistance from student helpers, but this assistance has not been consistent enough to complete the keying of data. The Registrar has requested the use of Community Work Experience Program (CWEP) participants since 2006, but has been told that the program is unable to place any participants in her office, due to a funding shortage in the program. The Registrar has requested clerical assistance from other programs in the Division of Public Health, but these requests have not been responded to.

2. Section Number: II. Unduplicated Count by Ethnicity

Field Name: InfantsTitleXIX_NotReported

Row Name: Eligible for Title XIX

Column Name: Ethnicity Not Reported

Year: 2009

Field Note:

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2009
[SEC. 506(A)(1)]
STATE: GU

1. State MCH Administration:
(max 2500 characters)

The Guam Title V Maternal and Child Health (MCH) and Children with Special Health Care Needs (CSHCN) Program is administered as one integrated program within the Bureau of Family Health & Nursing Services, Division of Public Health, Department of Public Health and Social Services (DPHSS). The DPHSS is headed by the Director of Public Health and Social Services. The Directors position is a cabinet-level position within the Governors Office. MCH/CSHCN Program is operated as a single organizational unit and serves as both the local and state agency. This single state agency is authorized to administer Title V funds and is responsible for both MCH and CSHCN services

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 750,806
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 337,283
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 0
7. Program Income (Line 6, Form 2)	\$ 0
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 1,088,089

9. Most significant providers receiving MCH funds:

Bureau of Family Health and Nursing Services

Bureau of Professional Support Services

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	1,750
b. Infants < 1 year old	3,501
c. Children 1 to 22 years old	3,301
d. CSHCN	1,225
e. Others	2,062

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
(max 2500 characters)

Direct health care services are defined as basic health services. Such services are generally defined "one-to-one" between a health professional and a patient in an office, clinic or emergency room. Basic services include what most consider to be ordinary medical care, inpatient and outpatient services, allied health services, laboratory services, x-ray services, dental care and pharmaceutical products and services. The Title V Program supports services such as prenatal care, child health and family planning. Direct health care services also include health care services for children with special health care needs. For pregnant women, there are a number of system constraints that affect this particular population. There are considerable financial constraints, such as inadequate or no health insurance. For many women and families, their personal income affects their ability to access care, as items such as food and housing take priority. There is a limited availability of maternity care providers willing to serve economically disadvantaged high-risk pregnant women and their children. There continues to be a need for enhanced community-based support for families and children. These services need to be coordinated between public agencies so as to most efficiently address the broad determinants of health, such as physical, mental, emotional, cultural and social supports. For children with special health care needs, there is a urgent need for a greater capacity of home and community-based supports, from in-home nursing to personal care services to respite care, to flexible family funding for services and equipment, that lie outside those traditionally considered medically necessary.

b. Population-Based Services:
(max 2500 characters)

Population-based services are defined as services that are intended for and available to the entire population, rather than for a select group of individuals. Disease prevention, health promotion and outreach come under this heading. Oral health, injury prevention, nutrition and public education are topics, which also belong in this category. Population-based services are generally available for women and children regardless of whether they receive care in the public or private sector or whether or not they have health insurance. Because the majority of adolescent morbidity and mortality results from preventable behavioral choices, there is a great need to provide population-based services that emphasize both building protective factors, resiliency and developmental assets, as well as reducing high-risk behaviors. There remains a need for partnerships between public health, schools, youth-serving agencies and others to design and implement these programs and approaches which focus on building strengths in our youth. At the same time, these programs and approaches can target reduction of both the behaviors and the environments that contribute to the leading causes of death for teens "unintentional injuries and suicide. Community-based services need to be coordinated with planning and evaluation efforts to enhance knowledge development as to the most efficient and effective means of serving the population. For children with special health care needs, there is a need for development of services and supports to help youth with special health care needs transition to the adult system of care, at the same time, it must be recognized that the adult system of care for individuals with chronic conditions beginning in childhood needs further development in order to be ready to receive the population.

c. Infrastructure Building Services:
(max 2500 characters)

Infrastructure-building services are defined as services that are directed at improving and maintaining the health status of a population. Included among those services are development and maintenance of health systems, standards and guidelines, training, data and planning. Needs Assessment evaluation, policy development, quality assurance information systems, and applied research are all contained within the infrastructure umbrella. Staff need to develop improved skills in data utilization, planning and evaluation. Plans need to be developed that include a range of educational methods to meet the needs of staff to build competencies in carrying out the core public health functions. For children with special health care needs, there is a need for the continued and expanded collaboration with families in the ongoing assessment of need and evaluation of services and strategies to meet those needs; such collaboration, if successful, will be beneficial through all levels of the pyramid.

FIELD LEVEL NOTES

None

FORM 11
TRACKING PERFORMANCE MEASURES
[SECS 485 (2)(2)(B)(iii) AND 486 (A)(2)(A)(iii)]
STATE: GU

Form Level Notes for Form 11

The data for 2006 and 2007 births has not been keyed into the Vital Statistics data files. The 2006 birth year has only had 36% of records keyed, and 2007 has not been started. The primary reason is a continuing lack of staff support for data entry, as well as a continuing lack of staff for the Office of Vital Statistics. In addition to the 40% vacancy rate the Office has had since 1999, they were given additional duties in January 2007 with no provisions made for additional funding or staff. These additional duties (marriage license applications) take up the time that had been used in the past for keying of data. During 2008, for short and sporadic periods, the Office has been able to garner some assistance from student helpers, but this assistance has not been consistent enough to complete the keying of data. The Registrar has requested the use of Community Work Experience Program (CWEP) participants since 2006, but has been told that the program is unable to place any participants in her office, due to a funding shortage in the program. The Registrar has requested clerical assistance from other programs in the Division of Public Health, but these requests have not been responded to.

PERFORMANCE MEASURE # 01

The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	75	80	85	90	100
Annual Indicator	72.9	75.1	4.2	4.6	0.0
Numerator	2,404	2,574	136	133	0
Denominator	3,298	3,427	3,203	2,914	3,501

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes**1. Section Number:** Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2006

Field Note:

Loss of professional staff in the Chief Public Health Office and additional mandated responsibilities for the Office of Vital Statistics hampered data collection and analysis in Grant Year 2006. Additional computers for use by the Vital Statistics staff were prepared with the programs and databases needed for keying of birth, death, fetal death, marriage and divorce data. However, during the passage of the FY07 budget act, the responsibilities of marriage license registration were moved from the Department of Revenue and Taxation to the Office of Vital Statistics, to begin January 1, 2007. Unfortunately, no additional funding for staff, equipment, or supplies was budgeted, so the three existing permanent staff had to absorb the registration duties. Space previously used for keying data is now utilized for marriage license registration. The three computers which replaced older ones for vital statistics keying were eventually set up in a rear area of the office space. With the added duties and awkward placement of the computers, the Vital Statistics staff cannot easily move from responding to counter requests to keying data as they had in the past, and little to no keying was completed during the grant year. Requests for augmentation of staff have been answered with the part-time assistance of one person in the Community Work Eligibility Program (CWEP) administered by the Division of Public Welfare.

The Planner/Biostatistician transferred to another Division.

2. Section Number: Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2005

Field Note:

The Vital Statistics Section of the Department of Public Health and Social Services was unable to provide a complete statistical report to the MCH Program.

PERFORMANCE MEASURE # 09

Percent of third grade children who have received protective sealants on at least one permanent molar tooth.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	45	46	47	48	49
Annual Indicator	49.0	100.0	30.0	30.0	31.1
Numerator	1,654	1	991	991	991
Denominator	3,377	1	3,307	3,307	3,184

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes**1. Section Number:** Performance Measure #15**Field Name:** PM15**Row Name:****Column Name:****Year:** 2006**Field Note:**

Loss of professional staff in the Chief Public Health Office and additional mandated responsibilities for the Office of Vital Statistics hampered data collection and analysis in Grant Year 2006. Additional computers for use by the Vital Statistics staff were prepared with the programs and databases needed for keying of birth, death, fetal death, marriage and divorce data. However, during the passage of the FY07 budget act, the responsibilities of marriage license registration were moved from the Department of Revenue and Taxation to the Office of Vital Statistics, to begin January 1, 2007. Unfortunately, no additional funding for staff, equipment, or supplies was budgeted, so the three existing permanent staff had to absorb the registration duties. Space previously used for keying data is now utilized for marriage license registration. The three computers which replaced older ones for vital statistics keying were eventually set up in a rear area of the office space. With the added duties and awkward placement of the computers, the Vital Statistics staff cannot easily move from responding to counter requests to keying data as they had in the past, and little to no keying was completed during the grant year. Requests for augmentation of staff have been answered with the part-time assistance of one person in the Community Work Eligibility Program (CWEP) administered by the Division of Public Welfare.

The Planner/Biostatistician transferred to another Division.

2. Section Number: Performance Measure #15**Field Name:** PM15**Row Name:****Column Name:****Year:** 2005**Field Note:**

The Vital Statistics Section of the Department of Public Health & Social Services was unable to provide MCH with a complete statistical report for the year 2005

PERFORMANCE MEASURE # 16

The rate (per 100,000) of suicide deaths among youths aged 15 through 19.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	40	40	40	40	40

Field Level Notes1. **Section Number:** Performance Measure #17**Field Name:** PM17**Row Name:****Column Name:****Year:** 2005**Field Note:**

Guam does not have facilities for high risk deliveries.

In January 2004, the arrival of a Medical Transport System especially fitted for the 767 aircraft arrived. The unit cost almost a quarter million dollars.

However, in order to install the unit for transport, 6 seats have to be removed from the aircraft. Patients are charged for the 6 coach seats, at a medical discount rate. The price tag for the family can cost between \$6 – 10,000 and that is without the medical staff that must accompany the patient.

PERFORMANCE MEASURE # 18

Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007

Field Level Notes**1. Section Number:** State Performance Measure #1**Field Name:** SM1**Row Name:****Column Name:****Year:** 2007**Field Note:**

The data for 2006 and 2007 births has not been keyed into the Vital Statistics data files. The 2006 birth year has only had 36% of records keyed, and 2007 has not been started. The primary reason is a continuing lack of staff support for data entry, as well as a continuing lack of staff for the Office of Vital Statistics. In addition to the 40% vacancy rate the Office has had since 1999, they were given additional duties in January 2007 with no provisions made for additional funding or staff. These additional duties (marriage license applications) take up the time that had been used in the past for keying of data. During 2008, for short and sporadic periods, the Office has been able to garner some assistance from student helpers, but this assistance has not been consistent enough to complete the keying of data. The Registrar has requested the use of Community Work Experience Program (CWEP) participants since 2006, but has been told that the program is unable to place any participants in her office, due to a funding shortage in the program. The Registrar has requested clerical assistance from other programs in the Division of Public Health, but these requests have not been responded to.

2. Section Number: State Performance Measure #1**Field Name:** SM1**Row Name:****Column Name:****Year:** 2006**Field Note:**

Loss of professional staff in the Chief Public Health Office and additional mandated responsibilities for the Office of Vital Statistics hampered data collection and analysis in Grant Year 2006. FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: GU FY: 2009

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. To decrease infant mortality and morbidity, preterm births a low birth weight.
2. To decrease mortality and morbidity among adolescents.
3. To decrease intentional and unintentional injuries in the MCH population.
4. To increase care coordination and public awareness for children with special health care needs.
5. To reduce unintended and intended adolescent pregnancies.
6. To reduce unhealthy and risk-taking behavior among adolescents.
7. To assure early identification and referral of substance abuse, domestic violence and child abuse and neglect.
8. To assure that all children with special health care needs have a medical home for comprehensive, primary and preventive health care with coordination of all health and support services.
- 9.

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: GU

SP # 1

PERFORMANCE MEASURE:

To reduce the percent of pregnant women who received no prenatal care

STATUS:

Active

GOAL

To reduce the percent of pregnant women who received no prenatal care

DEFINITION

Prenatal care is the provision of comprehensive reproductive personal health services to a pregnant women.

Numerator:

The number of births to women who received no prenatal care.

Denominator:

The total number of live births.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

16.6

The proportion of pregnant women who receive early and adequate prenatal care.

16.6a

Early and adequate prenatal care.

DATA SOURCES AND DATA ISSUES

Live birth records

SIGNIFICANCE

Undesirable outcomes of pregnancy result from the lack of prenatal care.

SP # 2

PERFORMANCE MEASURE:

Proportion of low-income women who receive reproductive health/family planning services

STATUS:

Active

GOAL

To improve the health status of women of childbearing age (15-44).

DEFINITION

Title V and Title X family planning clinics provide birth control and other vital health care services to low-income women and teens. Often family planning clinics are the only source of health care for women.

Numerator:

Number of women of low economic status aged 15-44 who receive reproductive and family planning services.

Denominator:

Number of women of low economic status aged 15-44.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

By 2010, increase the proportion of pregnancies that are intended.

DATA SOURCES AND DATA ISSUES

Family Planning Program data.

SIGNIFICANCE

Unintended pregnancy is a serious public health issue and is costly. Providing family planning services results in substantial savings in both human and fiscal terms.

SP # 3

PERFORMANCE MEASURE:

Percent of women who use alcohol, tobacco and other drugs during pregnancy

STATUS:

Active

GOAL

To decrease the percentage of women who alcohol, tobacco and other drugs during pregnancy

DEFINITION

Use of tobacco, alcohol and other drugs during pregnancy is injurious to the fetus and profoundly affects pregnancy outcomes

Numerator:

The number of women who use alcohol, tobacco and other drugs during pregnancy

Denominator:

The number of occurent births in the calendar year

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

14.0

Increase abstinence from tobacco by pregnant women to at least 90%.

DATA SOURCES AND DATA ISSUES

Guam Vital Statistics

SIGNIFICANCE

Health professionals concur that tobacco, alcohol and other drug use is injurious to the fetus during pregnancy

SP # 4

PERFORMANCE MEASURE:

Percent of children younger than 18 years maltreated/neglected.

STATUS:

Active

GOAL

To reduce the incidence of maltreated and/or neglect of children younger than age 18 years.

DEFINITION

Numerator:

Number children younger than age 18 years maltreated and/or neglected per 1,000 children in the State.

Denominator:

All children in the State younger than age 18 years.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Bureau of Social Services Data Systems, Guam Police Department, Guam Memorial Hospital Authority, Vital records

SIGNIFICANCE

The number of reported cases of child abuse and neglect has been increasing steadily in the last several years.

SP # <u>5</u>	
PERFORMANCE MEASURE:	The prevalence of partner violence in adolescent relationships
STATUS:	Active
GOAL	To build healthy relationships
DEFINITION	<p>The prevalence of partner violence in adolescent relationships</p> <p>Numerator: The number of high school students that respond affirmatively to the questions "During the past 12 months, did your boy/girl friend ever hit, slap or physically hurt you on purpose?"</p> <p>Denominator: The number of high school students that respond to the questions "During the past 12 months, did your boy/girl friend ever hit, slap or physically hurt you on purpose?"</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2010 OBJECTIVE	
DATA SOURCES AND DATA ISSUES	YRBS
SIGNIFICANCE	Young people who are involved in abusive relationships often continue this destructive pattern of behavior into adulthood.

SP # 6

PERFORMANCE MEASURE:

The percent of high school students who have engaged in sexual intercourse

STATUS:

Active

GOAL

To reduce the percent of high school students who have engaged in sexual intercourse

DEFINITION

The percent of high school students who have engaged in sexual intercourse

Numerator:

Number of high school youth that respond affirmatively that they have engaged in sexual intercourse

Denominator:

Total Number of high school youth that respond that they have engaged in sexual intercourse

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

By 2010, reduce pregnancies among adolescent females to no more than 46 pregnancies per 1,000.

DATA SOURCES AND DATA ISSUES

YRBS

SIGNIFICANCE

Adolescent pregnancy is one of the most pressing and persistent problems facing society. Pregnancy in adolescence may be associated with inadequate prenatal care, higher rates of low birth weight and infant mortality and repeat pregnancies during the teen years. Children born to an adolescent mother are more likely to encounter additional health risks compared with children born to non-teenage mothers. In addition, teen parenthood is associated with poverty, high costs of health care and public assistance and low educational attainment.

SP # 7

PERFORMANCE MEASURE:

The percent of high school students who are overweight

STATUS:

Active

GOAL

To increase the percentage of adolescents making healthy nutritional and lifestyle choices and to reduce morbidity associated with body image issues

DEFINITION

The percent of high school students who are overweight

Numerator:

Number of high school youth that respond affirmatively to being overweight

Denominator:

Number of high school youth that respond to being overweight

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

By 2010, reduce the proportion of children aged 6 to 11 and youth aged 12 to 19 who are overweight or obese to 5%.

DATA SOURCES AND DATA ISSUES

YRBS

SIGNIFICANCE

Dramatic increases in childhood overweight have occurred in the recent decades. Pediatric overweight has a profound effect on physical, mental, emotional and social development of children. Furthermore, childhood overweight is associated with developing into adult overweight. Overweight youth have an estimated 70-80% chance of becoming obese adults.

SP # <u>8</u>	
PERFORMANCE MEASURE:	Percent of Children with Special Health Care Needs (CSHCN) who have age appropriate completed immunizations
STATUS:	Active
GOAL	To assure that all CSHCN have age appropriate completed immunisations
DEFINITION	<p>Percent of Children with Special Health Care Needs (CSHCN) who have age appropriate completed immunisations</p> <p>Numerator: Number of CSHCN who have age appropriate completed immunisations</p> <p>Denominator: Total number of CSHCN in the CSHCN Registry</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2010 OBJECTIVE	
DATA SOURCES AND DATA ISSUES	Guam CSHCN Registry
SIGNIFICANCE	Infectious disease remain impoprtant causes of preventable illness in the U.S. despite significant reductions in incidence in the past years.

SO # <u>1</u>	
OUTCOME MEASURE:	The fetal death rate per 1,000 live births.
STATUS:	Active
GOAL	To reduce the number of fetal deaths.
DEFINITION	<p>Numerator: Number of fetal deaths greater than 20 weeks gestation.</p> <p>Denominator: Live births + fetal deaths.</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2010 OBJECTIVE	
DATA SOURCES AND DATA ISSUES	Vital records.
SIGNIFICANCE	Fetal mortality is a reflection of the health of the pregnant woman and newborn and reflects the pregnancy environment.

Is the Data Provisional or Final?

Yes Yes Yes

Provisional

Provisional

Field Level Notes

1. **Section Number:** Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2007

Field Note:

The SCHIP benefits became available to Guam in 1998. This program allows States and territories to choose from three different options when creating a plan to cover under-served children. These are: establishing a new children's health insurance program, expanding current Medicaid programs, or a combination of both strategies. Currently, Guam is using its allotment to expand Medicaid eligibility.

Information for HSCI was obtained from Medicaid form HCFA 416 the Annual EPSDT Participation Report. Based on the data provided, it seem that most individuals enrolled are receiving some periodic screening. However, the consistency and quality of the screening and the thoroughness of referrals, follow-up and treatment are areas of concern. A number of programs (MCH, WIC, Early Intervention, etc.) work to assure that all infants, including those on Medicaid receive comprehensive screening and referrals.

2. **Section Number:** Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2006

Field Note:

This HSCI is not fully applicable to Guam, due to the Medicaid cap. Unlike the funding received by U.S. states, the Medicaid and SCHIP funding are capped. Guam receives a maximum of \$6.68 million a year.

HEALTH SYSTEMS CAPACITY MEASURE # 04

The percent of women (15 through 44) with a live birth during the reporting year whose observed to expected prenatal visits are greater than or equal to 80 percent on the Kotelchuck Index.

		Annual Indicator Data				
	2003	2004	2005	2006	2007	
Annual Indicator	NaN	0.0	0.0	0.0	0.0	
Numerator	0	0	0	0	0

FORM NOTES FOR FORM 18

The data for 2006 and 2007 births has not been keyed into the Vital Statistics data files. The 2006 birth year has only had 36% of records keyed, and 2007 has not been started. The primary reason is a continuing lack of staff support for data entry, as well as a continuing lack of staff for the Office of Vital Statistics. In addition to the 40% vacancy rate the Office has had since 1999, they were given additional duties in January 2007 with no provisions made for additional funding or staff. These additional duties (marriage license applications) take up the time that had been used in the past for keying of data. During 2008, for short and sporadic periods, the Office has been able to garner some assistance from student helpers, but this assistance has not been consistent enough to complete the keying of data. The Registrar has requested the use of Community Work Experience Program (CWEP) participants since 2006, but has been told that the program is unable to place any participants in her office, due to a funding shortage in the program. The Registrar has requested clerical assistance from other programs in the Division of Public Health, but these requests have not been responded to.

FIELD LEVEL NOTES

1. **Section Number:** Indicator 06 - Medicaid

Field Name: Med_Infant

Row Name: Infants

Column Name:

Year: 2009

Field Note:

The data for 2006 and 2007 births has not been keyed into the Vital Statistics data files. The 2006 birth year has only had 36% of records keyed, and 2007 has not been started. The primary reason is a continuing lack of staff support for data entry, as well as a continuing lack of staff for the Office of Vital Statistics. In addition to the 40% vacancy rate the Office has had since 1999, they were given additional duties in January 2007 with no provisions made for additional funding or staff. These additional duties (marriage license applications) take up the time that had been used in the past for keying of data. During 2008, for short and sporadic periods, the Office has been able to garner some assistance from student helpers, but this assistance has not been consistent enough to complete the keying of data. The Registrar has requested the use of Community Work Experience Program (CWEP) participants since 2006, but has been told that the program is unable to place any participants in her office, due to a funding shortage in the program. The Registrar has requested clerical assistance from other programs in the Division of Public Health, but these requests have not been responded to.

2. **Section Number:** Indicator 05

Field Name: LowBirthWeight

Row Name: Percent of ow birth weight (<2,500 grams)

Column Name:

Year: 2009

Field Note:

The data for 2006 and 2007 births has not been keyed into the Vital Statistics data files. The 2006 birth year has only had 36% of records keyed, and 2007 has not been started. The primary reason is a continuing lack of staff support for data entry, as well as a continuing lack of staff for the Office of Vital Statistics. In addition to the 40% vacancy rate the Office has had since 1999, they were given additional duties in January 2007 with no provisions made for additional funding or staff. FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: GU

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	1	No
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	1	No
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	1	No
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	1	No
Annual birth defects surveillance system	1	No
Survey of recent mothers at least every two years (like PRAMS)	1	No

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: GU

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other:		

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

None

FIELD LEVEL NOTES

None

FORM 20
HEALTH STATUS INDICATORS #01-#05
MULTI-YEAR DATA
STATE: GU

Form Level Notes for Form 11

None

HEALTH STATUS INDICATOR MEASURE # 01A

The percent of live births weighing less than 2,500 grams.

	<u>Annual Indicator Data</u>				
	2003	2004	2005	2006	2007
Annual Indicator	9.2	8.5	9.1	0.0	0.0
Numerator	303	290	291	0	0
Denominator	3,298	3,427	3,203	2,914	3,501

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer
 than 5 and therefore a 3-year moving average cannot be
 applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Provisional

Provisional

Field Level Notes

1. Section Number: Health Status Indicator #01A

Field Name: HSI01A

Row Name:

Column Name:

Year: 2007

Field Note:

The Community Health Centers are using Health Pro data to measure first trimester entry into prenatal care. In 2006, 11.6% of pregnant women received care in the first trimester of their pregnancy; this is down from 13.5% and 14.8% for the years 2004 and 2005 respectively. Women from the Federated States of Micronesia had an entry rate of 9.2% for 2005 and 10.2 in 2006. The Community Health Centers anticipates that because of a part-time OB/GYN physician working additional hours there will be a gradual increase in the percent of women.

2. Section Number: Health Status Indicator #01A

Field Name: HSI01A

Row Name:

Column Name:

Year: 2006

Field Note:

Loss of professional staff in the Chief Public Health Office and additional mandated responsibilities for the Office of Vital Statistics hampered data collection and analysis in Grant Year 2006. Additional computers for use by the Vital Statistics staff were prepared with the programs and databases needed for keying of birth, death, fetal death, marriage and divorce data. However, during the passage of the FY07 budget act, the responsibilities of marriage license registration were moved from the Department of Revenue and Taxation to the Office of Vital Statistics, to begin January 1, 2007. Unfortunately, no additional funding for staff, equipment, or supplies was budgeted, so the three existing permanent staff had to absorb the registration duties. Space previously used for keying data is now utilized for marriage license registration. The three computers which replaced older ones for vital statistics keying were eventually set up in a rear area of the office space. With the added duties and awkward placement of the computers, the Vital Statistics staff cannot easily move from responding to counter requests to keying data as they had in the past, and little to no keying was completed during the grant year. Requests for augmentation of staff have been answered with the part-time assistance of one person in the Community Work Eligibility Program (CWEP) administered by the Division of Public Welfare.

The Planner/Biostatistician transferred to another Division

HEALTH STATUS INDICATOR MEASURE # 01B

The percent of live singleton births weighing less than 2,500 grams.

These additional duties (marriage license applications) take up the time that had been used in the past for keying of data. During 2008, for short and sporadic periods, the Office has been able to garner some assistance from student helpers, but this assistance has not been consistent enough to complete the keying of data. The Registrar has requested the use of Community Work Experience Program (CWEP) participants since 2006, but has been told that the program is unable to place any participants in her office, due to a funding shortage in the program. The Registrar has requested clerical assistance from other programs in the Division of Public Health, but these requests have not been responded to.

HEALTH STATUS INDICATOR MEASURE # 04A

The rate per 100,000 of all nonfatal injuries among children aged 14 years and younger.

		Annual Indicator Data				
		2003	2004	2005	2006	2007
Annual Indicator		0.0	0.0	0.0	0.0	0.0
Numerator		0	0	0	0	0
Denominator		49,180	49,426	49,532	49,606	49,606
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.						
<i>(Explain data in a year note. See Guidance, Appendix IX.)</i>						
Is the Data Provisional or Final?					Provisional	Provisional

Field Level Notes**1. Section Number:** Health Status Indicator #04A**Field Name:** HSI04A**Row Name:****Column Name:****Year:** 2007**Field Note:**

The data for 2006 and 2007 births has not been keyed into the Vital Statistics data files. The 2006 birth year has only had 36% of records keyed, and 2007 has not been started. The primary reason is a continuing lack of staff support for data entry, as well as a continuing lack of staff for the Office of Vital Statistics. In addition to the 40% vacancy rate the Office has had since 1999, they were given additional duties in January 2007 with no provisions made for additional funding or staff. These additional duties (marriage license applications) take up the time that had been used in the past for keying of data. During 2008, for short and sporadic periods, the Office has been able to garner some assistance from student helpers, but this assistance has not been consistent enough to complete the keying of data. The Registrar has requested the use of Community Work Experience Program (CWEP) participants since 2006, but has been told that the program is unable to place any participants in her office, due to a funding shortage in the program. The Registrar has requested clerical assistance from other programs in the Division of Public Health, but these requests have not been responded to.

2. Section Number: Health Status Indicator #04A**Field Name:** HSI04A**Row Name:****Column Name:****Year:** 2006**Field Note:**

Loss of professional staff in the Chief Public Health Office and additional mandated responsibilities for the Office of Vital Statistics hampered data collection and analysis in Grant Year 2006. Additional computers for use by the Vital Statistics staff were prepared with the programs and databases needed for keying of birth, death, fetal death, marriage and divorce data. However, during the passage of the FY07 budget act, the responsibilities of marriage license registration were moved from the Department of Revenue and Taxation to the Office of Vital Statistics, to begin January 1, 2007. Unfortunately, no additional funding for staff, equipment, or supplies was budgeted, so the three existing permanent staff had to absorb the registration duties. Space previously used for keying data is now utilized for marriage license registration. The three computers which replaced older ones for vital statistics keying were eventually set up in a rear area of the office space. With the added duties and awkward placement of the computers, the Vital Statistics staff cannot easily move from responding to counter requests to keying data as they had in the past, and little to no keying was completed during the grant year. Requests for augmentation of staff have been answered with the part-time assistance of one person in the Community Work Eligibility Program (CWEP) administered by the Division of Public Welfare.

The Planner/Biostatistician transferred to another Division

HEALTH STATUS INDICATOR MEASURE # 04B

The rate per 100,000 of nonfatal injuries due to motor vehicle crashes among children aged 14 years and younger.
